## SEEDS FOR FALL -- AUGUST, 1950

General conditions are more unsettled than a year ago so we won't try to guess seed prices for the coming season. However, Government supports on legumes and grasses are about the same as last year and seed prospects on some items are better than they were a year ago. Most folks feel price averages could be lower than they were in 1949-50.

### SEED GRAINS

**WHEAT** - Four of the best and most widely used soft red winter wheat varieties are quoted. Some prefer one to the other but all are high producers, generally stiff strawed and widely adapted.

Thorne is red chaffed, smooth, very stiff strawed, high yielding and the most popular variety. Butler is bearded, equally as stiff strawed and high yielding; is less susceptible to scab damage, a little more winter hardy and slightly higher in test.

Vigo is a smooth variety noted for winter hardiness and high test weight per bushel. Average yield and straw stiffness is slightly under Thorne and Butler in Ohio but test weight generally is higher. Trumbull is beardless, white chaffed, less subject to scab injury than Thorne, fairly stiff strawed and produces excellent quality grain.

**RYE** - Rosen type rye is widely used for both grain production and plow under purposes. Balbo is more leafy and under most conditions better suited for early fall and spring pasture. Demand is strong and seed supplies remain limited.

**BARLEY** - Ohio No. 1 barley is bearded, high yielding and has proven superior to others under Ohio conditions. Wong is considered as beardless and is stiffer strawed than other varieties. Seeding should be about two weeks ahead of wheat.

### GRASSES

Timothy and Brome grass, both of which are used extensively in fall seedings, are much lower in price than last spring. More seed is being harvested so supplies should be adequate. Bluegrass, orchard grass and fescues are expected to be at last year's levels.

All seed wheat and barley offered by SCOTTS is excellent quality, treated, ready to sow. Shipments will start about August 15th. Send in your order now.

Sincerely,

THE SCOTT FARM SEED CO.

# Seed Price List

August 8, 1950

"SCOTT'S" grade is the highest quality seed available. It is carefully selected and thoroughly re-cleaned. Noxious weed free. May contain 0.10% to 0.25% other crop seed and in most cases will test 99.75% pure seed.

MECHANICSBURG OHIO

SPECIALS: The grades marked "Special" may be slightly off in appearance, lower in germination, or contain a small amount of other clovers or crop seed. This seed is clean and is perfectly safe to sow.

Early fall is the ideal time to sow most pasture grasses. Scott's mixture for fall seeding is a blend of the most desirable grasses and legumes for permanent pastures. Contains Kentucky Bluegrass, Redtop, Perennial and Annual Ryegrass, Orchard Grass, Timothy, White Clover and Alsike.	Ky. 31 Fescue (Cert.) ..... .70 lb.	Contains Ladino clover, alsike, Birdsfoot Trefoil, Kentucky Bluegrass, Alta Fescue, Reed Canary Grass, Brome Grass, Orchard Grass, Perennial Ryegrass and Redtop. Sow 25-30 lbs. per acre.
Sow 20-25 pounds per acre for establishing a new pasture and about half that amount for reseeding an old pasture.	Ky. 31 Fescue ..... .60 lb.	SCOTT'S Crop-Land Mix is suggested where the field is to be left in pasture for at least five years and where heavy grazing is desired. Apply fertilizer, and lime where needed, and follow recommended seeding methods.
	Meadow Fescue ..... .40 lb.	
	Reed Canary Grass ..... .90 lb.	
	Ryegrass (Annual) ..... .16 lb.	
	Ryegrass (Perennial) ..... .20 lb.	
	Orchard Grass ..... .36 lb.	
	Brome (Southern Type) ..... .40 lb.	

## Scott's Treated Seed Grains

All Seed Wheat and Barley will be treated without extra charge. This treatment is recommended by the U. S. Department of Agriculture and the State Experiment Stations for the control of certain smuts and many other seed borne and seedling diseases. Seed treatment usually improves stands, yields and quality of grain.

# Scotts for Farm Lawns

HAVEN GRASS SEED is a blend of clean quick starting seed especially suited for farm lawns. Does not require summer watering or expert care. Fertilize spring and fall, mow fairly high and enjoy a nice lawn. Does not contain clover. Complete directions in each box.

SCOTTS WEED & FEED is a combination lawn feed and weed control. Will kill almost all broad leaf weeds as buckhorn, dandelion, and broad leaf plantain. Feeds the grass, keeps lawn healthy and green. Retards clover but does not kill if used according to enclosed directions.

Haven Grass Seed		Scotts Weed & Feed	
1 lb. ....	\$ .89	Box, 2,500 sq. ft. ....	\$ 3.50
5 lbs. ....	4.45	Bag, 11,000 sq. ft. ....	12.75
SCOTTS SPREADER No. 50 .....		\$16.50	

SCOTTS SPREADER—Sturdy, all steel with rubber tires. Easy, simple adjustment on handle for quick shut-off and different rates of seeding or fertilizing. The No. 50 spreader box holds 50 lbs. of Weed & Feed or 20 to 25 lbs. of lawn seed. Applies seed and fertilizer uniformly and accurately. Twenty inch spread.
